SKILLS SUMMARY

- **Languages**: Swift, Python [Intermediate], Java [efficient], XML, SQL, JavaScript, TypeScript, Kotlin [Intermediate], C++ [prior]
- **Tools**: Prisma, Vercel, GIT, MS Excel, MySQL, WordPress, Adobe XD
- **Platforms**: MongoDB, AWS, GCP, FireBase, Android Studio, XCode, Linux
- **FrameWorks**: Express, FastAPI , Node.js

WORK EXPERIENCE

- **Razorpod** — Remote
  Back End Developer — *May 2023 - Oct 2023*
  - **Intercomm**: Intercomm is a robust, secure chatbot built on modern tech, powered by Express.js for seamless HTTP handling and middleware (compression, cors, helmet) for performance and security. "express-async-errors" ensures smooth error handling. Leveraging Node.js modules (os, path, fs, shelljs) enables efficient system interactions and file handling.

- **UPilot: Advanced Sales CRM Features for Everyone** — Remote
  Customer Success — *6 June 2022 - May 2023*
  - **AppScript**: Utilizing technical expertise in Google Sheets AppScript and MS Excel to automate data import processes and maintain API integrations.
  - **Webhooks Integration** : Experienced in seamless website integration with diverse platforms, specializing in robust webhook implementation for efficient data communication between systems, automating processes and enhancing user experience. Also providing customer support.

- **IIIT Naya Raipur** — Remote
  For API and Flutter Support — *10 Dec 2022 - 30 March 2023*
  - **API**: Contributed to ongoing research efforts at IIIT Naya Raipur, funded by the Ministry of Electronics and Information Technology, Government of India, by developing a FastAPI-based API to analyze plant images and provide accurate disease diagnosis results.
  - **Flutter Support**: In addition to developing the FastAPI-based API for plant disease diagnosis, I also worked on implementing Flutter support for the mobile application, allowing them to connect with database and remove few bugs.

- **Warrant Book** — Remote
  Police Department - view app. — *Dec 2022 - present*
  - **App development (Kotlin)**: Designed and developed a government app to manage records and streamline workflows. Currently Maintaining the App.
  - **Collaboration**: Implemented features to improve collaboration among team members, resulting in more efficient and effective teamwork.
  - **Info**: Conducted user research and testing to ensure that the app was user-friendly and met the needs of government employees. Contributed to the reduction of paper usage and the improvement of organizational efficiency.

- **Gastos Pvt Ltd.** — Remote
  Android Developer Intern — *Apr 2022 - July 2022*
  - **Gastos Provider**: As a part I worked with API's, Cashfree SDK, Paytm SDK and made different screens for the provider app. Improved some UI changes and Functionalities
  - **Gastos Sales**: Made the whole app for tracking and analysing day to day onboarding of the merchants for the Admin.

PROJECTS
